1. Introduction

LondrCoin (\$LONDR) is a community-driven ERC20 token inspired by the future of service economies, rewards innovation, and meme culture. Born from the intersection of laundry services, the gig economy, and decentralized technology, LondrCoin represents a playful yet serious commitment to a decentralized future where micro-rewards fuel micro-communities.

2. Vision and Purpose

Traditional loyalty programs are broken. Gig workers, service providers, and everyday consumers are left without meaningful, portable rewards. LondrCoin aims to change that.

Our vision:

- Make micro-rewards accessible and decentralized.
- Support service providers with a fun, tradeable token.
- Celebrate entrepreneurship through meme-driven culture.
